3.3 Expected outcomes

- Planning of the area will provide a framework for the sustainable growth of the municipality.
- Urban beautification will lead to increased investment within the municipality by attracting investors and urbanization. This will lead to an increase in the municipality’s economy due to an increase in cash flow, resulting to improved livelihoods.

3.4 Implementation modalities and timeframe

The modalities under which the municipal board will observe as it implements this investment plan include:

- The first responsible party for the planning of the use of the Urban Development Grant is the Municipal Board, with Municipal manager heading the secretariat as the implementing agency.
- The projects will be undertaken in F/Y 2024/2025
- Procurement will be done through open tenders, and the municipal administration with the guidance of the municipal manager and the chief officer of the department of urban planning will oversee the process to ensure transparency.
- The municipal administration will oversee the implementation of the projects and will carry out the day to day operations of the municipal board.
