## MWANACHI GUIDE VIHIGA COUNTY GOVERNMENT BUDGET ESTIMATES FY 2024/2025

### ECONOMIC DEVELOPMENT IN VIHIGA COUNTY

Vihiga has demonstrated remarkable growth in economy over the period 2018-2022. The Gross county product grew from 68.65 Billion in 2018 to 101.18 Billion in 2022 at current prices (KNBS, GCP Report 2023). Over the period, the average annual growth in GCP is 4.7 percent which is higher than the national's growth of 4.6percent. The contribution of the County's GCP to the Nationals Gross Value Added (GVA) has remained constant over the years at 0.8 percent. The GCP per capita grew from KES. 119,926 in 2018 to KES. 163,068 in 2022 against National GDP per-capita of KES.264, 077.

In terms of economic activity contribution to GCP, Agriculture Forestry and Fishing remained dominant, contributing KES. 39.16 Billion (38.70 % of County GCP), followed by Transport and Storage contributing KES. 10.05 Billion (9.94% of County GCP). The least economic activity contributors to the GCP (below one Percent) are Electricity supply, water supply & collections and accommodation.

### REVENUE PROJECTION

Based on ordinary revenue projection of KES 2,948.1 billion in FY 2024/25, it is proposed that KES 2,549.1 billion be allocated to National Government and KES 391.1 billion to County Governments as equitable share.

The allocation to County Governments' equitable revenue share of KES 391.1 billion in FY 2024/25 is informed by the following prevailing circumstances:

- The implementation of the fiscal consolidation plan by the Government, which is aimed at reducing the fiscal deficit inclusive of grants from 5.6 percent of GDP in FY 2022/23 to 4.9 percent of GDP in FY 2023/24, and further to 3.9 percent of the GDP in FY 2024/25. In this regard, there is need for continuous rationalization of expenditures by eliminating non-core expenditures while improving efficiency in development projects implementation so as to contain expenditure growth, stabilize debt and reduce debt vulnerabilities;
- ii. The National Government continues to solely bear shortfalls in revenue in any FY. However, County Governments continue to receive their full allocation despite the budget cuts affecting the National Government entities;
- iii. Increased expenditure for National Government for purposes of debt servicing coupled with a weakening shilling against the dollar;
- iv. Low ordinary revenue collections attributed to the ongoing geopolitical shocks. This includes the Russia-Ukraine war which has negatively affected the dollar and the international debt market; and
- v. The proposed equitable share of KES 391.1 billion in the FY 2024/25 is equivalent to 24.86 percent of the actual revenues raised nationally, which complies with Article 203(2) of the Constitution.

Horizontal allocation of revenue among County Governments shall be based on the third basis formula, which was considered and approved by parliament in September 2020. The third formula takes into account the following parameters; (i) Population (18%); (ii) Health Index (17%); (iii) Agriculture index (10%); (iv) urban Index (5%); (v) Poverty Index (14%); (vi) Land Area Index (8%); (vii) Roads Index (8%) and (viii) Basic Share Index (20%).

Accordingly, in FY 2024/25, the Counties will share an estimated KES 391.1 billion as equitable share, with Vihiga County being allocated KES. 5,340,712,256.

### **Additional Allocations**

In the County Government Additional Allocation Bill, for FY 2024/25, the National Treasury proposes to allocate a total of KES 54.7 billion as additional allocations (Conditional and Unconditional). Out of this, KES 19.06 billion will be financed from the National Government share of revenue and KES 35.66 billion from proceeds of loans and grants from Development

Partners. The loans and grants that the County anticipates to receive are shown in the table below:

### **OWN SOURCE INCREASE CRITERIA**

The County has recently acquired and implemented an automated revenue collection and management system. This has enabled the county government to migrate to cashless collection platform and overcome some of the challenges that existed in manual and cash collection system. This system once fully operational will reduce revenue losses due fraud as well as improve the accuracy of our revenue forecasting. The county government will also formulate and implement Revenue Enhancement Action Plan to drive OSR growth agenda.

#### CRITERIA FOR RESOURCE ALLOCATION

Resources are to be allocated based on the following criteria;

- i. Payment of pending bills.
- ii. Extent to which the programme is linked to the CIDP 2023-27, Governor's Manifesto, MTP IV, BETA, SDGs and other international commitments;

- iii. Cost effectiveness, efficiency and sustainability of the Programme/projects within the MTEF period;
- iv. The extent to which the programme is addressing economic recovery following the effects COVID-19 pandemic;
- v. Extent to which the Programme and sub programme output and outcome is aligned to the sector goals and departmental core mandate;
- vi. Programmes that are co-funded;
- vii. Compensation to employees;
- viii. Consideration for on-going projects; and

### PROPOSED CEILINGS FOR FY 2024/2025

As earlier indicated, the BPS 2024 proposes equitable share of revenue for Vihiga County of KES. 5,340,712,256 while the County Government projects to collect OSR set at KES. 290,020,183.

According to the BPS 2024, Vihiga County Government projects to receive additional allocations to the tune of KES 629,500,962. However, it is worth noting that this figure is a tentative projection as the National Treasury is yet to produce the County Governments Additional Allocations Bill, which will highlight the disbursement of conditional grants to Counties. In addition, some of the additional disbursements will be allocated after assessment of the counties.

The proposed Vihiga County Government Resource Envelope for FY 2024/25 is a shown in the table below
